

12-core dual-core fiber distribution box

Overview

This distribution box terminates up to 2 fiber optic cables, offers spaces for splitters and up to 16 fusions, allocates 16 SC adapters and working under outdoor environments. For order details and product specifications download. This unit is a pull-out type. The LC ports, rack mount 19 fibre optic odf/ODF 12 core can all be conveniently pulled out like a drawer. The same with all other fibre splice boxes, it is widely utilized for wiring and connection between fibre optic cables and fibre. This 12-core fiber optic distribution box, developed in-house, complies with industry standard YD/T2150-2010. It is primarily used in FTTX access system terminals. Designed without adapter slots, this enclosure provides a high-reliability, low-loss solution for environments where permanent fusion splicing is preferred. The 12 Port Fiber Distribution Box can connect up to 2 optical cables, providing space for distributors and 12 fuses.
