

24 Fiber Optic Cable Price

AI Overview

The price of a 24-core fiber optic cable typically ranges from \$0.80 to \$1.50 per meter, depending on construction, fiber type, and manufacturer. Price Overview For 24-core ADSS (All-Dielectric Self-Supporting) fiber optic cables, the average cost is \$0.80 to \$1.50 per meter, with bulk purchases or custom configurations potentially affecting the final price. This range reflects standard outdoor-grade cables designed for utility and telecom applications.

Factors Affecting Price

Cable Construction: Armored or reinforced cables with aramid yarns or fiberglass rods for tensile strength and sag resistance cost more than standard designs.

Fiber Type: Single-mode fibers are generally less expensive per meter than multimode fibers, but equipment costs may differ.

Jacket Material: High-density polyethylene (HDPE) jackets are standard for UV, moisture, and temperature resistance. Enhanced jackets with flame-retardant or anti-tracking additives increase cost.

Length and Bulk Orders: Longer runs or bulk orders often reduce the per-meter price, while short or custom lengths may be more expensive.

Manufacturer Reputation: Established brands or suppliers with quality certifications may charge a premium.

Additional Considerations

Installation Type: Outdoor or aerial installations may require more durable cables, slightly increasing cost compared to indoor runs.

Performance and Longevity: ADSS cables are immune to electromagnetic interference and suitable for high-voltage areas, offering long-term reliability and low maintenance.

Comparison to Other Fiber Counts: While 24-core cables are mid-range in capacity, higher-count cables (e.g., 48 or 288 cores) cost more per meter due to additional fibers and complexity.

In summary, when budgeting for 24-core fiber optic cables, expect \$0.80–\$1.50 per meter for standard ADSS cables, with variations based on material quality, environmental rating, and supplier. For large-scale projects, contacting suppliers for bulk pricing and specifications is recommended.
