

48-core fiber optic distribution box and patch panel

Overview

The ODF indoor wall mount fiber optic enclosure is designed to provide a distribution point to feed a high capacity of fiber optic cables to other closets or zones. It can support patching for up to 48x SC fiber optic connections. This Fiber Optical patch panel is a 19-inch standard type. The enclosure has a swing-out 2 door with a padded lock and key for. NG4access ® Cabled Modules available in all module sizes and fiber counts up to 864 fibers NG4access ® Splice Tray Four sizes of interchangeable Propel fiber pass-through adapter packs provide the breadth of capabilities for virtually any configuration. Four sizes of interchangeable Propel fiber. Propel Series Sliding Fiber Optic Panels for holding Propel modules, adapter packs and splice cassettes EPX Fiber Optic Panel available in either G2 or LGX/PNL 1U, 2U or 4U fixed or sliding configurations FMT (Fiber Management Tray) Series Fiber Optic Panels FOMS-FPS and FOMS-FPS-HD Fiber. Fiber Optic Patch Panels, also known as fiber optic distribution boxes or fiber termination boxes, provide organization, an access point for cable termination, and physical security all while sustaining the proper bend radius of the cables inside. Finished in a scratch resistant black powder coating, plastic push clips which enable easy access to the fully extending sliding panel tray and allows hands free access to the fibre terminations.
