

Access Switch 32

Overview

Unmanaged 32-Port Gigabit PoE switch with 32x 10/100/1000Mbps RJ45 ports and 4x Gigabit SFP uplink ports, supporting IEEE 802. The KN4032VB series KVM over IP switch provides local console and remote over IP access for users to monitor and access their entire data center over a network. 3af/at PoE, delivering reliable power, high-speed data transmission, and stable networking for IP cameras, access points, and enterprise applications. Requiring the use of Omada Hardware Controller, Omada Cloud-Based Controller, or Omada. They are highlighted by their high performance, high density, and the data speed of up to 100 Gbps. They meet the Spine-Leaf network architecture design requirements. This product is currently unavailable in your region. Contact us for alternative solutions.
