

Australian Electrical Box Injection Molding Manufacturer

AI Overview

Mastroplas, SDI Plastics, Socobell, and InJMould are leading Australian manufacturers offering injection molding services for electrical enclosures and components. Key Manufacturers Mastroplas is an Australian-owned company specializing in the design, tooling, and manufacturing of plastic injection molded products. They offer full-service solutions from concept to production, with capabilities to handle components ranging from 5 grams to 500 grams. Their facility supports a wide range of resins, including engineering plastics like polycarbonates, nylons, acrylics, and polyurethanes, and they provide 24/7 production and cleanroom services for industries such as medical and food service, which can be relevant for specialized electrical enclosures. SDI Plastics focuses on plastic injection molding for electric and electronic components. They manufacture electrical housings, timers, machinery parts, and various controls. SDI Plastics emphasizes quality, durability, and rapid prototyping to volume production, using both conductive and non-conductive plastics suitable for watertight and UV-resistant applications. Socobell has over 50 years of experience in plastic injection molding across multiple industries, including electrical. They provide end-to-end services from design and engineering to testing and product validation, making them suitable for complex electrical enclosures and components requiring high precision. InJMould operates on the Sunshine Coast and produces a wide range of injection molded products, including electrical and construction components. They emphasize flexibility, custom production, and competitive pricing, catering to both small and large-scale projects. Considerations for Choosing a Manufacturer Material Options: Ensure the manufacturer can process engineering-grade plastics suitable for electrical applications, such as polycarbonate or ABS. Pro...

Edplas Australia

Edplas Australia is an Australian owned family business established in 1980 and specialises in the designing, tooling and manufacturing of plastic mould products. Our family owned business is one of

Rella Plastics | Plastic Moulding Melbourne | Injection Moulding Australia

Rella Plastics is established in 1979, is a plastic injection moulding facility specialising in custom moulding of a wide variety of plastic components.

Mastroplas - Plastic Injection Moulding

We are a full service plastic injection moulding manufacturer, confidently geared to assist in taking any project from concept inception through to product design, tooling and manufacture.

Plastic Components for Electrical Industry | SDI Plastics

Focusing on manufacturing our products domestically within Australia or in Malaysia, gives us an advantage when it comes to fulfilling and delivering orders. Contact

Home | Australian Injection Moulding

Australian Injection Moulding specialise in product development, design and manufacturing of high precision, custom engineered injection moulds. We are the leading mould makers for extremely

A Capella: A Unique Compilation | PDF | Wellness

This document contains a long list of words beginning with "ab-" or "ac-". It does not appear to be a coherent text, but rather a collection of unrelated terms.

Top 10 Injection Molding Companies in Australia

Table Of Contents Australia's economy has developed rapidly in recent years and will continue to grow in the coming years. Australia's industry is dominated by manufacturing,

Injection Moulding and Custom Moulding | Anchor Plastics

We mould the components needed for many of the well-known products in many sectors of Australian industry. Electrical, lighting, swimming pools, water filtration, hospitality, furniture, building, electronic,

Top 10 Injection Molding Companies In Australia | ZetarMold

Australia's injection molding 1 sector generates approximately AUD 4.2 billion annually, with manufacturing concentrated in Melbourne's southeastern corridor, Sydney's western suburbs,

Injection Molding Service Australia | Plastic Molding Melbourne

We manufacture and supply durable, functional, and cost-effective plastic injection molded products defence, automotive, medical, aerospace, and consumer industries. We are among the best plastic

Plastic Injection Moulding, Plastic Decoration, Component Production

We have the capacity, technology, and experience to bring any plastic injection moulded part to completion: from supplying detailed automotive interiors to specialised medical and pharmaceutical

Custom Plastic Injection Moulding Australia | SK Plastics

As a family owned business, we are focused on manufacturing and supplying high quality custom plastic injection moulding products for local Australian markets, and have been doing so for over six decades.

Top 10 Injection Molding Companies In Australia

ZetarMold supports Australian manufacturers with injection molding services that combine China's cost efficiency with quality systems built for export

Injection Moulded Electrical Components | SDI Plastics

Whether it's the robust housing for a circuit breaker or the intricate design of a cable connector, injection moulded components are crucial to ensuring safety, reliability, and performance in electrical

Forme Technologies | Product Development | Precision Tooling ...

Forme's manufacturing facilities are ISO 9001 & ISO 13485 accredited. Our quality control environment has been built for achieving consistently superb quality. Forme can manufacture, assemble and

Plastic Injection Moulding By Allmould Plastics

Allmould Plastics is a privately held, family-run company that specialises in plastic injection moulding. Customer satisfaction is extremely important to us!

Injection moulded plastic | Metplas Pty LTD | Australia

Metplas is an Australian family owned and operated manufacturer of injection moulded medical, electrical, marine, technical and startup plastic components

Plastic Injection Moulding Australia | SDI Plastics

SDI Plastics leads Australian plastic manufacturing with expert design, prototyping, toolmaking, and injection moulding services for high-quality products.

The 10 Best Injection Moulding Companies in Australia

Injection moulding is widely used for manufacturing a variety of parts, from the smallest components to entire body panels of cars. Advances in 3D printing technology, using photopolymers

Plastic Injection Moulding By Allmould Plastics

Our professional injection moulding team are highly qualified in all aspects of plastic product manufacturing. As 100% Australian and family owned business, we are

Plastic Injection Moulding, Plastic Decoration, Component Production

For over 50 years, Socobell has worked with industry leaders in the automotive, medical, electrical, construction and communications fields. We have the capacity, technology, and experience to bring

Injection Molding & Die Casting Machine Manufacturer

Shibaura Machine Company America is leading global manufacturer of precision injection molding machines, machine tools, and die casting machines.

Austraplas

As part of our commitment to local innovation and manufacturing Austraplas invites you to bring in your ideas and designs and we will assist you with our full support and expertise in the development of
