

Busline Bridge Construction in Nigeria

Overview

The first phase, covering 47. The project, built under a public-private partnership, is designed to boost trade and tourism along Nigeria's coastline. Since taking office in 2023, President Bola Ahmed Tinubu's administration has aggressively prioritized high-impact road infrastructure, launching and commissioning multi-billion naira corridors to unlock national economic potential. President Bola Tinubu has commissioned several major road projects. Nigeria will begin constructing a 90,000-kilometre national fibre optic network in late 2025, which the government calls the most ambitious digital infrastructure project in its history. The rollout, dubbed Project Bridge, is designed to break the near-monopoly of mobile network operators (MNOs).
