

Cable Tray Cold Bending Machine Price Quote

AI Overview

Cable tray cold bending machines typically range from ₹1,00,000 to over ₹3,00,000 in India, with prices varying based on automation, production capacity, and customization options.

Price Overview

Entry-level machines: Starting around ₹1,00,000, suitable for small-scale production or basic bending tasks (Upkar Industries).

Mid-range machines: Approximately ₹1,80,000, offering higher precision, moderate automation, and better durability (O.K. Engineering Works).

High-end machines: Around ₹3,00,000 or more, featuring advanced automation, high production efficiency, and customizable options for different tray types (Sedvik Industries Private Limited).

Prices may vary internationally, with Chinese manufacturers offering machines with high automation, precision, and adaptability for global markets. Fully automatic machines, like those from HOPEX, integrate cutting, bending, forming, and punching in one line, improving efficiency and reducing labor costs, but these are typically more expensive.

Key Features Affecting Price

Automation Level: Machines with automatic cutting, bending, and forming are more expensive than semi-automatic or manual models.

Production Capacity: Higher throughput and faster production speeds increase cost.

Material Compatibility: Machines capable of handling galvanized steel, aluminum, or stainless steel may cost more due to stronger components and precision rollers.

Customization: Machines tailored for specific tray types (ladder, trough, or perforated) or special environmental conditions can increase the price.

After-Sales Support: Suppliers offering installation, commissioning, and technical support may include these services in the overall cost.

Supplier Considerations

Indian suppliers: Offer competitive pricing and local support, with starting prices as low as ₹1,00,000.

Chinese manufacturers: Provide high-prec...
