

Cable tray accessories directly

AI Overview

Cable tray accessories are essential components that support, connect, and protect cables within a structured cable management system. Overview Cable tray accessories are fittings and add-ons used alongside cable trays to ensure organized, safe, and efficient cable routing in commercial, industrial, and construction environments . They help prevent hazards like entanglement, tripping, and damage to cables while facilitating directional changes, branching, and secure mounting. Common Types of Accessories Supports and Hangers: Brackets, hoisting frames, cross arms, and suspension rods secure trays to walls, ceilings, or floors, providing stability for both small and large cable trays . Connectors and Couplers: Plates, tees, crosses, and U-beam fittings join tray sections, allowing smooth transitions and system continuity . Covers and Protective Fittings: Solid or ventilated covers protect cables from dust, water, and falling objects, while barrier strips and flanges enhance safety . Fasteners and Hardware: Bolts, nuts, washers, and swift clips ensure secure attachment of trays and accessories, including grounding connections . Specialized Accessories: Grounding conductors, protective rings, separating strips, and expansion components prevent static, EMI, and mechanical stress . Compatibility and Duty Ratings Accessories are designed to match the type of cable tray used: Solid-bottom trays: Require cutters for cable entry/exit and solid covers for protection . Ventilated trays: May need slots or holes for smaller cables . Ladder trays: Use traverse bars and solid cover fittings to protect cables from environmental hazards . Accessories are available in heavy-duty, medium-duty, or light-duty strengths, depending on the load and installation requirements . Installation Guidelines Hoisting frames: Ideal for small trays, installed with suspension rods and a five-piece fastening kit; recommended spacing is 1.5–2 meters . Cross arms: Suitable for large trays, requiring two suspension rods and two fastening kits per arm for stability . Wall and ceiling support...
