

Certified Wall-Mounted Patch Box with 6 Cores

Overview

The HTB8004 6-Port Fiber Optic Distribution Box is a reliable and space-saving solution for fiber termination and distribution in FTTH and telecom networks. Designed with a strong ABS housing, it protects fibers from environmental impact while ensuring organized cable routing. How does the 6 Cores Socket Panel enhance data transmission efficiency in fiber optic networks?

The 6 Cores Socket Panel optimizes data flow by allowing multiple connections, minimizing signal loss, and supporting high-speed data transmission. The PATCHBOX® Plus+ with Cat. 6a cables consists of a Frame, Mounting Rails, the Patchcatch – our ORU cable manager – and 24 Cable Cassettes with retractable flat cables inside. The cables are 6ft long and cover up to 30RU. You. Streamline your cabling with wall-mounted patch panels. With capacity for 6. The Relevance Inspector will open in the Coveo Administration Console. This fiber distribution unit can accommodate up to 6 fiber adapter panels and 4 splice trays.
