

Current Price of Trapezoidal Cable Trays

AI Overview

Trapezoidal cable trays currently range from approximately \$0.80 to \$76 per unit, depending on material, size, and purchase volume. Price Overview Trapezoidal cable trays are available in stainless steel, galvanized steel, and aluminum, with prices varying based on material quality, dimensions, and supplier. For B2B bulk purchases, prices typically range from \$0.80 to over \$76 per tray, reflecting differences in size, load capacity, and customization options. Smaller-scale or consumer-oriented trays may cost less, but industrial-grade trays for construction, data centers, or factories are priced at the higher end of the spectrum. Factors Affecting Price Material: Stainless steel and aluminum trays are more expensive than galvanized steel due to corrosion resistance and durability. Size and Load Capacity: Larger trays or those designed for heavy power cables cost more. Trapezoidal designs are often chosen for high-load applications. Coating and Finish: Hot-dip galvanization, powder coating, or corrosion-resistant finishes increase cost. Supplier and Volume: Bulk orders from manufacturers like Shandong Hongfeng or Shandong Bolt Electrical Equipment Co., Ltd. offer lower per-unit prices, while smaller orders or retail purchases are higher. Customization: Trays can be tailored for specific cable types, spans, or environmental conditions, which may affect pricing. Typical Applications Trapezoidal cable trays are widely used in industrial facilities, chemical plants, coastal areas, high-rise buildings, and subway tunnels due to their strength, ventilation, and corrosion resistance. They are suitable for high and low voltage power cables, communication cables, and sensitive control systems. Supplier Examples Shandong Hongfeng Import and Export Co., Ltd.: Offers customizable trapezoidal trays in stainless steel and aluminum, suitable for heavy-duty and corrosive environments. Shandong Bolt Electrical Equipment Co., Ltd.: Provides wholesale trapezoidal cable trays with daily output of ~120 tons, emphasizing industrial-scale supply. For precise pricing, it is r...
