

## Custom-made cable trays in West Africa

### An Extensive Library of Self-Developed Products

### AI Overview

Custom cable trays in West Africa typically range from \$25 to \$150 per meter, depending on material, finish, and complexity of customization.

**Factors Affecting Cost**

**Material Type:** Cable trays are commonly fabricated from pre-galvanized steel, hot-dip galvanized steel, aluminum, or stainless steel. Pre-galvanized steel is the most affordable, while stainless steel is the most expensive due to corrosion resistance and durability, especially in coastal or industrial environments.

**Customization Options:** Customization includes specific dimensions, bends, elbows, tees, cross-sections, and powder coating or special finishes. More complex designs and finishes increase the cost significantly.

**Local Fabrication vs. Import:** Local manufacturers in West Africa, such as those in Nigeria, Ghana, and Senegal, can provide competitive pricing and reduce shipping costs. Imported trays may incur higher costs due to transportation, import duties, and logistics.

**Project Scale and Specifications:** Large-scale industrial or infrastructure projects often require heavier-duty, corrosion-resistant trays, which are more expensive. Smaller commercial projects may use standard ladder or perforated trays at lower costs.

**Installation and Labor:** While the material cost is a major component, installation labor also affects the total cost. Cable trays are generally faster to install than conduit systems, which can reduce overall project expenses.

**Estimated Price Range**

**Pre-Galvanized Steel:** \$25–\$50 per meter

**Hot-Dip Galvanized Steel:** \$50–\$90 per meter

**Aluminum:** \$70–\$120 per meter

**Stainless Steel (SS 304/316):** \$100–\$150 per meter

These prices are indicative and can vary based on project location, supplier, and customization requirements.

**Recommendations**

Engage local suppliers to minimize shipping and import costs.

Specify environmental conditions (e.g., coastal, humid, industrial) to select appropriate material and finish.

Request detailed quotes including accessories like bends, elbows, and junction boxes.

Consider Total Cost of Ownership (TCO), fact...
