

Direct Sales from Manufacturer of Medium and Low Voltage Complete Sets of Equipment

AI Overview

Manufacturers like GEYA, ABB, Chuanli Electric, and Schneider Electric offer direct sales of complete medium and low voltage equipment sets, including switchgear, transformers, and distribution boards, with customization and global support.

Leading Manufacturers and Their Offerings

GEYA Electrical provides a wide range of low-voltage products, including circuit breakers, residual current devices (RCDs), load break switches, contactors, relays, and solar energy components. They manufacture in China and supply globally, offering high-volume production at competitive prices, with a focus on industrial, OEM, and panel builder needs .

ABB specializes in medium voltage solutions, including vacuum circuit breakers, high-voltage switches, reclosers, protection relays, and sensors. Their products comply with IEC, ANSI, and IEEE standards and are designed for both indoor and outdoor applications. ABB also offers digital solutions for grid fault analysis and predictive maintenance, supporting utilities and industrial clients .

Chuanli Electric manufactures both high and low voltage equipment, including assembled switchgear cabinets, compact substations, power transformers, and cable distribution boxes. They provide standardized and customized solutions, installation, maintenance, and training services, with ISO 9001 and IEC compliance .

Schneider Electric focuses on low-voltage distribution products, offering air and molded case circuit breakers, motor controls, enclosures, busbar trunking systems, and distribution switchboards. Their solutions integrate IoT and cloud-based monitoring for energy management and operational efficiency .
