

Distribution box circuit hole cover plate

Overview

Hole seals and gland plates for electrical enclosures cover access holes for conduit and push buttons. Choose from functional panels, decorative artwork, and protective filler plates. The Square D by Schneider Electric Homeline Outdoor Cover Generator and QOM2 Frame Size Main Breaker Interlock Kit is used to direct generator power to any circuit within your home. Meets UL and ANSI safety requirements. For use on "S2" and "S3" Series NEMA 3R QOM2 load centers. These filler plates snap into panel openings. Close off unused outlets to protect against dust. MCB distribution board blanks are designed to safely cover unused ways in your consumer unit or distribution board, helping to prevent accidental contact with live components and maintain compliance with wiring regulations. These simple yet essential accessories ensure a neat, professional finish. Durable galvanized steel covers and device-mount plates, sized for standard 4" square metal-electric boxes (drawn or welded). Whether you need a blank cover for a spare junction, or a full device plate for switches, outlets, or GFCI, our collection delivers professional-grade performance for.
