

Dutch Fiber Optic Cable Upgrade Project

Overview

Specifically, Open Dutch Fiber will be a fiber-to-the-home (FTTH) platform 100% owned by both KKR, as majority shareholder, and DTCP as minority shareholder. Open Dutch Fiber will deploy fiber infrastructure in the Netherlands, to urban and higher population density. Use the map below to see in which municipalities we are currently active, and use your postal code to check the status at your address. Discover on which. Bunnik, 21 February – ODF has accelerated its roll-out and its network has passed the milestone of 600,000 homes, connecting more than 30 Dutch municipalities. This means that, instead of 2025 as planned, ODF will reach its original target of 1 million homes this year, after supplementing the footprint with the acquisition of E-Fiber and accelerating. So far, 8. 26 million fiber-optic connections have been installed. In some parts of the Netherlands, the roll-out is lagging behind. The Number Issuance Monitor reveals that sufficient numbers are still available. Amsterdam is famous worldwide for its picturesque urban architecture, including its famous rows and rows of vintage, low-rise. KKR, a private equity firm, and Deutsche Telekom Capital Partners (DTCP), an investment manager with backing from Deutsche Telekom, today announced they have entered into an agreement with T-Mobile Netherlands to launch a joint venture known as Open Dutch Fiber.
