

East Africa Telecom Optical Cable

Overview

The 2Africa cable, which fully landed in 2024, has materially improved East African international bandwidth pricing. The PEACE Cable provides a second high-capacity Asia-to-Africa route. Ethio telecom, Djibouti Telecom and Sudatel Group sign an agreement to deploy a cross-border optical fibre corridor linking submarine cables across East Africa. While submarine communications cables are used to connect countries and continents to the Internet, terrestrial fibre optic cables are used to extend this connectivity to landlocked countries or to urban centers within a country. East African Cables is a premier cable manufacturer, with a footprint that spreads across East and Central Africa. The company has four manufacturing facilities; two in Nairobi, Kenya, one in Dar es Salaam Tanzania and one in Eastern DRC. EASSy runs from Mtunzini in South Africa to Port Sudan in Sudan, with landing points in nine countries and is connected to at least ten. Major East African Telcos Forge Terrestrial Fiber Corridor to Boost Digital Connectivity February 11, 2026 In a significant move to bolster digital infrastructure and regional integration, three leading telecommunications operators from the Horn of Africa have signed a landmark agreement to. The launch of 2Africa enables us to offer our customers seamless connection between Africa and Europe, together with our SEA-ME-WE 5 and AAE-1 subsea cable resources to further extend to Asia, which is an important milestone of our global development strategy,” said Jessica Gu, Director & Chief.
