

Engineering Optical Cable Supplier

AI Overview

FOS Inon Optics, Optral, and WEINERT Industries AG are leading suppliers of custom, high-precision optical cables for engineering and scientific applications. FOS Inon Optics (Germany) specializes in custom fiber optic cables and assemblies for precision applications such as medical lasers, spectroscopy, microscopy, UV curing, and industrial laser systems. They offer highly precise fiber alignment with eccentricity deviations of less than 15 μm , ensuring minimal light loss at connection points. Their products include radiation-resistant and temperature-resistant optical fibers, fiber bundles, and optical sensors. FOS Inon operates globally and provides tailored solutions for complex engineering projects, emphasizing Made in Germany quality and reproducibility. Optral (Spain / Cunext Group) provides a wide range of fiber optic cables for indoor and outdoor applications, including telecommunications, data networking, and specialized engineering projects. They focus on high-performance fiber solutions and have experience in custom cable assemblies for industrial and mobility applications. Their offerings include FTTH solutions, data center cables, and hybrid fiber systems, suitable for projects requiring robust and efficient optical transmission. WEINERT Industries AG (Germany) manufactures special optical fibers and cables, including singlemode, multimode, and radiation-hard fibers, as well as polymer optical fibers (POF) and hybrid cables. They provide custom-designed fiber bundles and assemblies for engineering, healthcare, and photonics applications. Their full vertical integration allows for optimization at every stage of production, making them suitable for high-precision and specialized engineering projects. Additional Suppliers and Resources Photonics Buyers' Guide lists over 80 manufacturers and suppliers of fiber optic cables, assemblies, and specialty fibers for research, industrial, medical, and defense applications, including high-power laser delivery and spectroscopy probes
