

Ethiopia Fiber Optic Switch

Overview

Ethio Telecom has officially launched a nationwide initiative to switch from copper to fiber network technology, marking a pivotal moment in Ethiopia's telecom infrastructure. This shift is set to significantly enhance the speed, quality, and reliability of broadband services. Ethio Telecom has announced the launch of its “Copper Switch Off” service, aimed at modernizing wired broadband internet and data-based voice services by transitioning from copper lines to fiber optics. Frehiwot Tamru, the CEO of Ethio Telecom, presented the new service to media professionals. These Terms and Conditions ('the Terms') govern your use of the website on the Internet located at www.com ('the Site') and are legally binding on you. The Site is owned and operated by Developing Telecoms Limited ('the Owner', 'we', 'us', 'our'). This initiative will see 60,000 customers in Addis Ababa and 40,000 in regional.
