

Fiber Optic Cable Distribution Frame Module st

Overview

The ODF Fiber Optic Distribution Frame ST/UPC-12 core is a compact and reliable fiber management solution designed for access networks, enterprise communication systems, and FTTH deployments. Developed by Fenxi Optoelectronics Technology, this ODF integrates fiber termination, splicing, storage. NG4access[®] Cabled Modules available in all module sizes and fiber counts up to 864 fibers NG4access[®] Splice Tray Four sizes of interchangeable Propel fiber pass-through adapter packs provide the breadth of capabilities for virtually any configuration. The terminating box includes the metallic casing, adapter plate, splice tray, and other necessary materials for the. Optical distribution frame (ODF) is used in 19" standard cabinet, with immense thickness, substantial space and full front operation optical fibre splicing and distribution unit. It is malleable for installation and operation, Suitable for FC, SC, LC, ST adapters, ribbon, bundle and non-ribbon. Streamline your fiber connectivity with our premium Fiber Optic Patch Panels and ODF systems. fiber optic. The vast product portfolio contains rail mount modules for 12 and 24 fibers with ST, SC and LC adaptors for multimode OM1 to OM4 and singlemode OS2 fibers.
