

Fiber Optic Cable Patch Box

Overview

Fiber Optic Patch Panels, also known as fiber optic distribution boxes or fiber termination boxes, provide organization, an access point for cable termination, and physical security all while sustaining the proper bend radius of the cables inside. The Patchcatch Solo is a 0RU Cable Management Tool, that lets you fasten devices and manage cables in your rack effortlessly. The PATCHBOX Classic is being phased out but limited stock is still available. Take advantage of discounted pricing while supplies last. Join our Partner Program to access. The ACT lockable fiber patch box is a good solution for organizing your fiber optic cable infrastructure. The enclosure simplifies cable management and reduces the risk of cable damage by adding a cable protection. Belden offers several Fiber Patching Systems. Full patching platforms include FX ECX for LAN environments, FX UHD for high-density fiber channels and the DCX System used primarily in data centers where high amounts of fiber connections and density are the key requirements, as in optical. OTRANS provides professional, high-quality rack mount fiber patch panels (also known as fiber termination boxes) designed for modern data centers and network infrastructure. Find LC, SC, and ST connector options for your telecommunications or data center needs. Choose from racks, panels, modules, splice trays, ethernet fiber switches and other structured cabling components.
