

How much does a pre-made cable tray cost in Saudi Arabia

AI Overview

Pre-made cable trays in Saudi Arabia typically range from SAR 100 to SAR 400 per meter, depending on material, size, and load capacity. Price Overview The cost of cable trays in Saudi Arabia varies widely based on material, dimensions, type, and load rating. Common materials include galvanized steel, stainless steel, aluminum, and fiberglass (FRP), with finishes such as perforated, ladder, or solid trays. For example, light-duty trays for data cabling may start around SAR 100-150 per meter, while heavy-duty steel trays for industrial power distribution can reach SAR 350-400 per meter. Aluminum and FRP trays may be slightly higher due to corrosion resistance and durability in harsh environments. Factors Affecting Cost Material and Finish: Stainless steel and FRP are more expensive than galvanized steel due to corrosion resistance and longevity. Tray Size: Widths range from 100mm to 900mm, and height/thickness affects load capacity, influencing price. Load Rating: Light-duty (100kg/m), medium-duty (250kg/m), and heavy-duty (400kg/m) trays have different costs. Accessories and Installation: Brackets, supports, covers, and labor add to total project cost. Bulk Orders: Suppliers often offer discounts for large quantities, reducing per-meter cost. Supplier Options Youmats: Offers aluminum and powder-coated steel trays with fast delivery across Riyadh and other regions. Matkel: Provides SASO-certified galvanized steel and FRP trays, with standard and custom sizes, suitable for harsh environments. Saudi Electric Industries Co.: Supplies steel, aluminum, and stainless steel trays at wholesale prices, ideal for bulk procurement. Recommendations Define your technical requirements (cable type, load, width, material) before requesting quotes. Ensure compliance with SASO and IEC standards for safety and project approval. Request material certifications and datasheets to v...
