

How to install a smart security distribution box

Overview

Power on your box with USB-C cable*. Open the battery compartment and insert 3 AA batteries. Tap "Set up a device" from the app menu. When asked, scan the Yale QR code on the battery cover or. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio. Tip: If you already use the Yale Home App, use the same username and password. Whether you've just stepped out, can't get to the door, or are on vacation, SmartDrop will be waiting for you with your packages safe and sound. Round-the-Clock Protection: SmartDrop's sturdy, all-metal body will protect your parcels 24/7 from porch pirates and the elements, so you can say goodbye. This quick start guide will show you how to set up a complete SmartCell system, with default global sounder and output operation. This quick. Last week we talked about general tips for wiring your Loxone system, (you can find the blog [here](#)) but today we're taking a closer look at the inside of your distribution board and how to keep all those cables neat, tidy and safe.
