

Huawei Integrated Power Battery

Overview

Explore the new Huawei LUNA2000-241kWh battery, offering higher capacity, better efficiency, and enhanced safety for C&I energy storage and self-consumption projects. Energy storage is evolving at a rapid pace. Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series. And in this context, Huawei continues to position itself as one of the leading players. The HUA POWER 50kW/100kWh C&I All-in-One BESS Cabinet is purpose-built for commercial and industrial energy storage applications. Combining a 50kW power conversion system with 100kWh of high-performance LiFePO₄ batteries, it delivers reliable, efficient, and flexible energy storage in a compact. CloudLi integrates power electronics, IoT, and cloud technologies to implement intelligent energy storage in scenarios involving power equipment from Huawei and third parties, unleashing energy storage potential and maximizing site value.
