

Huawei single-mode optical modules for sale

AI Overview

Huawei single-mode optical modules typically range from \$100 to \$1,500 depending on model, speed, and transmission distance.

Price Overview

10G SFP+ Modules: For example, the Huawei SFP-10G-LR (1310nm, 10km) is available at competitive prices from online vendors, generally around \$100–\$200 per unit depending on supplier and shipping options. The OSX010000 SFP+ 10G single-mode module also falls in a similar price range.

40G QSFP+ Modules: Modules like the 40GBase-LR4 single-mode (1310nm, 10km) are priced higher, typically \$400–\$600 per unit. Lite versions with shorter distances (2km) may be slightly cheaper.

100G QSFP28 Modules: High-speed single-mode modules such as 100GBase-LR4 (1310nm, 10km) or 100GBase-CWDM4 (2km) can range from \$1,000 to \$1,500 per unit. DWDM variants with longer distances (60–80km) are at the upper end of this range.

Factors Affecting Price

Transmission Distance: Longer-range modules (e.g., 40–80km) cost more than standard 10km modules.

Wavelength and Type: DWDM or BIDI modules are more expensive than standard LR or ZR modules.

Vendor and Authenticity: Authorized distributors like router-switch.com and GenuineModules.com ensure genuine Huawei products, which may slightly increase cost but guarantee reliability.

Bulk Orders: Purchasing multiple units often reduces per-unit cost.

Where to Buy

Router-Switch.com: Offers 10G SFP+ modules with live chat support and fast shipping.

GenuineModules.com: Provides worldwide shipping and competitive pricing for various Huawei optical modules.

ItPrice.com: Lists a wide range of Huawei single-mode modules including 10G, 40G, and 100G options with price references.

OpticalTransceiver-Module.com: Sells specific models like OSX010000 SFP+ 10G single-mode modules with door-to-door delivery.
