

Industrial-grade switch with 12 Ethernet ports

Overview

It has standard 12 RJ45 ports and 4 SFP ports with each port supporting full line rate forwarding. The switch has an excellent fan less mechanical design with protection level of IP40 combined with good electromagnetic immunity making it suitable for use in an industrial environment. With high-speed 10-GE uplinks, high-wattage PoE options, ultra-low jitter, advanced network security features, and device-to-cloud performance monitoring with the Cisco ThousandEyes agent, these modular switches are your foundation for industrial AI. Managed with Cisco Catalyst Center or Cisco. Come-Star's 12-port industrial Ethernet switches are designed for critical industrial applications where reliability and high performance are paramount. These rugged switches are engineered to operate in the most challenging environments, offering exceptional durability and seamless data. Managed Switch 2000 series, 12 RJ45 ports 10/100/1000 Mbps, 2 SFP ports 100/1000 Mbps, 2 Combo ports, degree of protection: IP20, Ambient temperature (operation): -40 °C. 70 °C, Supply voltage range: 12 V DC. It can support dual DC power input and DIN Rail mounting.
