

Inquiry about Indonesian fireproof cable tray prices

AI Overview

Fireproof cable trays in Indonesia vary in price depending on material, type, size, and manufacturer, with fiberglass, FRP, and coated steel options being the most common.

Types of Fireproof Cable Trays

- Fiberglass Reinforced Plastic (FRP) / Fiberglass Cable Trays**
Lightweight, corrosion-resistant, and fire-retardant. Commonly used in chemical plants, industrial facilities, and outdoor installations. Examples: ORITRAY ladder-type and channel-type fiberglass trays by PT Ori Polytec Composites, designed for high chemical resistance, flame retardance, and UV protection.
- Metal Fireproof Cable Trays**
Steel or aluminum trays with fire-resistant coatings. Suitable for high-load and industrial applications. Manufacturers like PT. Surya Cakra Mandiri and Trias Indra Saputra offer steel cable trays with ISO-certified quality and custom fabrication options.
- Wiremesh / Cable Cage Trays**
Welded steel trays providing excellent airflow and fire resistance. Ideal for data centers, factories, and power plants. Available in mild steel, stainless steel, or FRP variants.

Factors Affecting Price

- Material:** FRP and fiberglass trays are generally more expensive than standard steel due to fireproof and corrosion-resistant properties.
- Size and Load Capacity:** Wider trays or those designed for heavy-duty loads cost more.
- Customization:** Custom lengths, thickness, coatings, or perforations increase cost.
- Certifications:** ISO 9001, ISO 14001, and OHSAS 18001 certified products may carry a premium.
- Installation Services:** Some suppliers offer delivery and installation, which can affect total project cost.

Price Range Estimates

While exact prices vary by supplier and project specifications, typical ranges in Indonesia are:

- Fiberglass / FRP trays:** Approximately IDR 1,200,000 – 2,500,000 per meter depending on type and load capacity.
- Steel fireproof trays:** Around IDR 800,000 – 1,800,000 per meter, with coated or galvaniz...
