

Inventory Smart Patch Panel 24 Cores

Overview

19"/1U electronic patch panel, offers 24 ports for Keystone modules. Each port associated with LED used to indicate patch cable connection. Intelligent panels communicate with and receive power from the SmartPatch network scanner, which in turn communicates with SmartPatch software over the network. The second side of the patch cord has the same cable ID and when the. The MapIT G2 Smart Patch Panel (SPP) is an industry first in intelligent infrastructure management. The panel features on-board intelligence and a combination of LEDs and a backlit LCD to guide technicians. These advanced systems improve reliability, reduce downtime, and. SMARTPATCH provides simple and controlled management and recording of common network changes such as those resulting from office moves and terminal additions.
