

## **Ivorian manufacturer s micro-module data center 4U**

### **Overview**

All equipment is pre-installed and pre-commissioned in the factory, you can put into use directly. iSmart Series Micro Data Center Solution, integrates UPS, air conditioner, power distribution module, monitoring system, temperature and humidity detection, light and access. Highly integrated and flexible installed data center infrastructure for rapid deployment and efficient operation and maintenance Inspur intelligent micro module product adopt factory prefabrication production and on-site modular installation technology for rapid deployment and flexible expansion. Delta InfraSuite is a new generation, highly integrated modular datacenter solution. These solutions. Also known as the mini data center, single cabinet capacity 3-7kVA. INVT iSmart can be used in offices, the noise level is around 55dB after the door is closed, equivalent to a quiet office, does not affect work at all. Please contact your Supermicro sales rep for validated HDD. CB3 mounting bracket for use on chassis with CB2 holes.
