

KVM Switcher Military Grade

Overview

Explore NIAP-certified secure KVM switches designed for government, military, and enterprise environments. Control multiple systems from one workstation with dual 4K displays, built-in CAC access, and advanced tamper protection for uncompromising data security. The KSW2100 Series is a rugged DVI splitter that takes one input and forwards it to up to four outputs. KVM (keyboard, video and mouse) switches allow multiple computers to share sets of I/O and visual display equipment. They may accommodate a variety of different device types, typically USB for. Government Agencies, Defense Contractors, and Military applications face many unique requirements and mandates that must be supported by control and access solutions like KVM Switches. KVM. Rugged military 19"/2 KVMs - MilDef - WE ARMOR IT. A KVM series supporting DVI + USB, up to 6 devices. Source toggle can be done by push buttons on the unit or an external switch. It comes with standard features, including HDMI/DisplayPort/USB-C digital and analog video, audio, virtual media, smart card/CAC support, and smart card/CAC/PKI login to KX III G2, as well as mobile. The SK41D-4TR, HSL's 4-Port HDMI Rugged secure KVM Switch, provides military users with superior security under the most challenging environmental conditions. The SK41D-4TR is the only KVM switch in the world that is both NIAP PP 4.
