

Kenya SC pigtail custom orders

AI Overview

SC fiber optic pigtails in Kenya can be custom-ordered from multiple suppliers, with options for cable length, fiber type, connector polishing, and bulk delivery nationwide. Suppliers and Customization Options Fiberoptic.co.ke offers SC fiber pigtails in simplex or duplex versions and explicitly supports custom designs, allowing you to specify cable length, fiber type, and connector type. Technerve Kenya provides Single-mode SC/APC 9/125 pigtails with options for PC, APC, UPC, or SPC polishing, and cable diameters of 0.9mm, 2.0mm, or 3.0mm. They support both single-mode and multi-mode fibers and allow online or direct call orders, with delivery across Kenya. City Telecommunication Centre (CTC Kenya) supports bulk orders for infrastructure rollouts, including FTTH and ISP backbone projects. They offer B2B pricing, technical support, and nationwide delivery, with same-day dispatch for in-stock items ordered before 2pm EAT. Almiria Kenya and CTC Solutions Kenya also supply Simplex SC/APC 9/125 single-mode pigtails, suitable for fusion splicing and field deployment, meeting industrial standards for insertion and return loss. Ordering and Delivery Most suppliers allow custom length and fiber type specifications. Delivery is available nationwide, with some offering same-day delivery in Nairobi and free delivery for orders above a certain threshold. Bulk orders for ISP or FTTH projects are supported, with technical guidance to ensure compatibility with network infrastructure. Recommendations Confirm availability and discuss your specific requirements (length, fiber type, connector polish) before placing a custom order. For large-scale deployments, consider suppliers like CTC Kenya for bulk stock and technical support. For smaller or highly customized orders, Fiberoptic.co.ke and Technerve Kenya provide flexible options. By contacting these suppliers directly, you can request quotes for custom SC pigtails and ensure timely delivery for your network projects in Kenya.
