

Libyan power distribution box installation manufacturer

AI Overview

Key Libyan manufacturers of power distribution boxes include Al Hussain for Electrical Industry, EICO Co, Altazamon, and Corina Company. Al Hussain for Electrical Industry and Services Established in 1993, Al Hussain is one of Libya's largest manufacturers of electrical distribution boards, package substation units (11/0.4 KV), and silent generators (20-1500 KVA) for industrial and utility applications . The company produces electrical distribution panels ranging from 80-3200 A, street lighting boxes, and specialized panels for oil and gas sectors. It is the official Schneider Electric panel builder in Libya, using high-quality ALUZINC steel and modern CNC machinery to ensure compliance with IEC, GECOL, and Schneider Electric specifications . EICO Co EICO Co operates two main factories: a low and medium voltage equipment factory in Wadi Al-Rabi'a and an electrical transformer factory in Sidi Al-Sayeh Bir Diab . The company manufactures electrical distribution stations, panels, boxes, transformer protection boxes, street lighting boxes, and ring link units. EICO Co also produces transformers from 50 kVA up to 2000 kVA, supporting both public electricity networks and private sector projects . Their products are widely trusted by the General Electricity Company of Libya (GECOL). Altazamon Founded in 1998, Altazamon specializes in engineering and assembly of electrical panels and distribution equipment . The company collaborates closely with GECOL and other major Libyan industries, providing customized electrical solutions for governmental and private clients. Altazamon emphasizes high-quality manufacturing using modern technology and skilled engineers, ensuring compliance with local and international standards . Corina Company Corina Company, established in Benghazi in 2010, focuses on supplying and installing electrical and mechanical systems across Libya . While pri...
