

Low-priced electrical distribution box manufacturers

AI Overview

Affordable electrical distribution boxes can be sourced from manufacturers like GEYA, EWJ, E•Box, and verified Chinese suppliers on Alibaba or Made-in-China. Key Manufacturers and Suppliers

1. **GEYA** GEYA specializes in distribution boxes, miniature circuit breakers, and smart electricity meters. Their products are certified by UL, CSA, TUV, and CE, and they offer IP65-rated boxes suitable for residential solar systems and other low-voltage applications. GEYA emphasizes cost efficiency by simplifying wiring and using high-quality ABS materials that are flame retardant and impact-resistant, making their distribution boxes both durable and affordable.
2. **EWJ** EWJ manufactures metal enclosures, including aluminum and stainless steel distribution boxes. They provide OEM customization from prototype to mass production, supporting IP65 outdoor enclosures. EWJ products comply with CE, ISO9001, and RoHS standards, making them suitable for industrial and commercial applications. Their focus on customization allows buyers to optimize cost by ordering according to specific design requirements.
3. **E•Box** E•Box offers UL-rated electrical enclosures with low lead times and a large inventory of finished goods. They provide custom sizes, colors, and applications, with half of small orders shipped within two days. E•Box is ideal for buyers needing quick delivery and cost-effective solutions for both small and large projects.
4. **Chinese Suppliers (Alibaba & Made-in-China)** Platforms like Alibaba and Made-in-China list numerous verified manufacturers offering cheap electrical distribution boxes. These suppliers provide options for bulk orders, OEM/ODM customization, and a variety of materials including plastic, fiberglass, and metal. Prices decrease with larger orders, and many suppliers offer modular designs and IP-rated enclosures suitable for industrial, commercial, and residential use.
