

MacOSKVM Switcher

AI Overview

MacOS-compatible KVM switches allow seamless control of multiple computers with one keyboard, mouse, and monitor setup, but setup varies by Mac model and monitor configuration. Compatibility and Setup Mac KVM switch compatibility depends on the Mac model and its display capabilities. Intel MacBooks typically support two external monitors natively, while base M1 and M2 models support only one monitor without additional hardware. Higher-end models like M1 Max, M2 Max, and M4 Max can drive up to four monitors. For dual-monitor setups on M1/M2 base models, a DisplayLink docking station is required, along with the DisplayLink Manager app installed on macOS to enable multiple displays.

Connection Overview

Intel MacBooks: Connect two HDMI cables from the Mac to the KVM using USB-C to HDMI adapters, plus a USB connection for keyboard/mouse and peripherals.

M1/M2 base MacBooks: Connect the docking station to the Mac, then connect the KVM to the docking station. Install DisplayLink Manager to enable dual-monitor output.

USB and peripherals: Ensure the KVM switch has enough USB ports for keyboards, mice, printers, or external drives.

Recommended Mac KVM Switches

- Camgeet USB-C KVM Switch** Supports up to 3 monitors (1 at 4K@60Hz, 2 at 1080p@60Hz) USB-C docking with USB 3.2 ports for multiple peripherals 80W Power Delivery for laptops Easy one-click switching between two computers Requires driver installation for full functionality
- UGREEN DisplayPort KVM Switch** Supports single monitor setups up to 8K@60Hz Includes two DisplayPort cables and USB A to USB-C cables Supports DP 1.4 and high refresh rates (up to 240Hz) Ideal for high-resolution Mac setups
- Adder "MagicEye" KVM** Optimized for Mac, supports customizable keyboard shortcuts Enhanced support for MacPro dithered video without link degradation

Key Considerations

Multi-Stream Transport Limitation: macOS does not support MST, so additional monitors may duplicate content unless using DisplayLink.

Switching Methods: Options include physical buttons, keyboard h...
