

Namibia cable tray price inquiry

AI Overview

Cable tray prices in Namibia typically range from \$2 to \$25 per meter, depending on material, type, size, and finish. Price Range and Cost Factors The cost of cable trays in Namibia varies widely based on material, design, and supplier. Common materials include galvanized steel, stainless steel, aluminum, and fiberglass, each affecting durability and price. Galvanized steel is the most common, balancing cost and strength, while stainless steel and aluminum are more expensive due to corrosion resistance and lightweight properties. Plastic trays are budget-friendly but suitable only for light loads. Prices per meter generally range from \$2 to \$25, with bulk orders often reducing the per-unit cost (Apex Tray). Other factors influencing pricing include:

- Tray type: Ladder trays are more expensive than perforated or wire mesh trays due to higher load capacity.
- Coating and finish: Hot-dip galvanizing (HDG) and powder coating increase durability but raise costs.
- Installation and labor: Skilled labor, equipment depreciation, and energy consumption for cutting or welding add to total project costs.
- Shipping and logistics: Heavier trays or imported products incur higher transport costs (Apex Tray).

Suppliers in Namibia Several suppliers provide cable trays in Namibia, offering both standard and customized solutions:

- Brilltech Engineers: Offers galvanized steel, stainless steel, and fiberglass trays with installation support and design assistance (Brilltech Engineers).
- Micro Sheet Crafts: Provides modular and customized cable trays at competitive prices, suitable for retail, industrial, and commercial projects (Supermarket Track).
- Wholesale importers: Some suppliers source trays from ports like Mundra or Nhava Sheva, with pricing available on request for bulk orders of 1000 pieces or more (Go4WorldBusiness).

Recommendations Request quotes from multiple suppliers to compare prices and delivery options. Specify material and tray type based on load requirements and environmental conditions. Consider bulk orders to reduce per-meter costs. Check for...
