

New type of cable tray in Congo

AI Overview

Congo now offers advanced cable tray solutions including perforated trays, ladder trays, and modular raceways made from galvanized steel, stainless steel, and fiberglass for enhanced durability and safety.

Overview of Cable Tray Innovations Recent developments in Congo's cable tray market focus on durability, safety, and modularity. Modern cable trays are designed to protect cables from physical damage, dust, and environmental hazards, while also improving airflow to prevent overheating and optimize cable performance.

Key Types of Cable Trays **Perforated Cable Trays** Feature holes along the tray for better ventilation,

reducing heat buildup. Ideal for high-density electrical installations where air circulation is critical. **Ladder Cable Trays** Composed of side rails and rungs, resembling a ladder. Provide excellent support for heavy cables and allow easy access for maintenance.

Often made from industrial-grade aluminum or galvanized steel for superior strength and corrosion resistance.

Raceways Modular systems designed to route cables under floors or along walls. Offer a sealed, tamper-proof solution for sensitive installations like communication rooms or computer centers.

Materials and Customization **Galvanized Steel:** Corrosion-resistant, strong, and suitable for harsh climates.

Stainless Steel: Provides long-term durability and resistance to chemical exposure. **Fiberglass:** Lightweight, non-conductive, and ideal for electrically sensitive environments.

Many suppliers in Congo offer customizable sizes, lengths, and designs to meet specific project requirements.

Applications These new cable tray systems are widely used in: **Industrial plants and factories** **Commercial buildings and data centers**

Electrical and communication infrastructure **Construction projects** requiring organized and safe cable management.

Suppliers and Expertise Companies like Brilltech Engineers and Cable House provide not only the trays but also installation support, system design, and technical consultation. They ensure compliance with in...
