

Price of G 657A18 optical fiber cable for mining in Tajikistan

AI Overview

G.657A18 mining optical fiber cables typically range from \$1.50 to \$3.50 per meter, depending on specifications, armoring, and order volume, with Chinese suppliers being the primary source for Tajikistan. Overview of G.657A18 for Mining G.657A18 is a bend-insensitive single-mode optical fiber designed for harsh environments, including mining shafts and underground installations. It offers high mechanical protection, tensile strength, and resistance to moisture and temperature fluctuations, often reinforced with steel tape or aluminum-plastic composites for durability. Mining-grade cables are usually armored and tight-buffered, with multiple fibers (commonly 4–24) arranged in a compact ribbon structure to facilitate high-density deployment in confined spaces.

Price Considerations Base price range: For mining-grade G.657A cables, prices generally fall between \$1.50 and \$3.50 per meter, depending on fiber count, armoring, and supplier. Bulk orders: Large-scale procurement can reduce per-meter costs through volume discounts. Negotiating directly with manufacturers in China, such as OUFU Optoelectronics, is recommended for Tajikistan shipments. Additional costs: Shipping, import duties, and local logistics in Tajikistan may add 10–20% to the total cost, depending on the port of entry and transport method. Suppliers with Central Asia trade lanes can reduce lead times.

Supplier and Sourcing Options Chinese manufacturers: OUFU Optoelectronics and GL FIBER are experienced in producing mining-grade G.657A cables and have export experience to Central Asia, including Tajikistan. Local buyers and importers: Companies like OOO GURDZOD and OOO RAUZA are active in importing fiber optic cables into Tajikistan, which can be leveraged for sourcing or partnership. Customization: OEM/ODM options are available for specific fiber counts, armoring types, and cable diameters, which is important fo...
