

Price of Irregularly Shaped Outdoor Server Racks

AI Overview

Outdoor server racks typically range from \$500 to over \$3,000 depending on size, material, IP rating, and customization. General Pricing Overview Outdoor server racks are designed to protect IT equipment from environmental hazards such as dust, moisture, and extreme temperatures, often featuring IP55 to IP65 ratings for weather resistance. Standard sizes like 9U, 12U, 18U, or 42U are commonly available, but irregularly shaped or custom racks can significantly increase costs due to specialized fabrication, reinforced materials, and additional cooling or ventilation systems. Small wall-mounted outdoor racks: \$500–\$1,200 Medium floor-standing racks (12U–24U): \$1,000–\$2,000 Large or custom-shaped racks with enhanced IP rating and cooling: \$2,000–\$3,500+ Factors Affecting Price Material: Steel and aluminum are standard; stainless steel or powder-coated finishes increase durability and cost. IP Rating: Higher ratings (IP65) provide better protection against water and dust, raising the price. Cooling and Ventilation: Built-in fans, vents, or climate control systems add to the cost. Customization: Irregular shapes, non-standard dimensions, or specialized mounting for non-19" equipment require custom fabrication, which can significantly increase price. Security Features: Lockable doors, reinforced panels, and tamper-proof designs add to the overall cost. Purchasing Options Alibaba and AliExpress offer a wide range of outdoor server racks, including custom options, with prices starting around \$500 for small units and increasing for larger or specialized designs. European suppliers like Serverschrank24 provide IP55-rated outdoor racks suitable for industrial environments, with additional accessories such as shelves and cable management systems that may affect pricing. Newegg and Server Racks Online provide standard and modular racks, which can be adapted for outdoor use with we...
