

Price of Overhead Optical Cable Guy Connector

AI Overview

The price of an Overhead Optical Cable Guy Connector typically ranges from \$5 to \$25 per unit, depending on material, size, and supplier. Pricing Overview Overhead optical cable guy connectors, also known as preformed guy grips or tension clamps, are used to secure ADSS or OPGW cables to poles or towers. Prices vary based on:

- Material:** Galvanized steel, aluminum, or stainless steel options affect durability and cost.
- Cable diameter compatibility:** Larger or specialized connectors for high-tension cables are more expensive.
- Quantity and supplier:** Bulk orders often reduce per-unit cost, while single-piece purchases may be higher.
- Customization:** Some suppliers offer custom sizes or logos, which can increase price.
- Supplier**

Examples Alibaba lists various preformed guy grips and dead-end clamps, generally in the low to mid-range pricing for industrial hardware. Made-in-China suppliers like Electric Powertek and Powtech provide connectors with ISO9001 certification and high tensile strength, with prices negotiable based on order quantity and specifications. Global OHL & Commodity Solutions and other distributors offer connectors conforming to IEC, ANSI, and other international standards, which may slightly increase cost due to quality assurance. Additional Considerations Shipping and import fees: International suppliers may add shipping costs, customs duties, or minimum order requirements. Installation accessories: Some connectors are sold with tension sets or grounding pieces, which can affect the total cost. Lead time: Typical delivery ranges from 7–15 days depending on quantity and supplier. For precise pricing, it is recommended to contact suppliers directly with your cable specifications, quantity, and any customization requirements to obtain a formal quote.
