

Price of Zimbabwean Ladder Cable Trays

AI Overview

Ladder cable trays in Zimbabwe typically range from around USD 27 to higher prices depending on size, material, and supplier. Ladder cable trays are widely used for organizing and supporting electrical, data, and fiber optic cables in industrial and commercial settings. A standard steel ladder cable tray measuring 225mm wide and 2.4m long is priced at approximately USD 27.73 in Zimbabwe, providing a durable and corrosion-resistant solution for cable management. Prices can vary based on material type (steel, PVC, or coated steel), tray width, length, and supplier. Several suppliers in Zimbabwe, such as Brilltech Engineers, offer both standard and customizable ladder cable trays to meet specific project requirements. Features often include pre-punched holes for easy installation, corrosion-resistant coatings, and rounded edges for safety. For larger projects or specialized applications, prices may increase due to customization or higher-grade materials. For the most accurate and up-to-date pricing, it is recommended to contact local suppliers directly, as availability and costs can fluctuate based on demand, import costs, and material prices. Many suppliers provide quotes upon request and can advise on bulk purchase discounts or delivery options. In summary, while a typical steel ladder cable tray starts around USD 27, the final cost depends on size, material, and supplier, and contacting local distributors is the best way to obtain precise pricing for your project in Zimbabwe.
