

# Price of high-quality fiberglass cable trays in China and Europe

## AI Overview

In China, high-quality fiberglass cable trays typically range from \$20 to \$150 per meter depending on size, type, and customization, while in Europe, prices are generally 1.5–2 times higher due to manufacturing and certification costs. Pricing in China

High-quality fiberglass cable trays in China are widely available from manufacturers such as ZHONGBAO RUIHENG TECHNOLOGY CO., LTD. and Shanghai Metal Corporation. Prices vary based on tray type, width, height, flame retardant grade, and sealing level. For example:

- Standard trays (width 100–300mm, height 25–50mm) can cost around \$20–\$50 per meter.
- Heavy-duty or flame-retardant trays (width 400–1000mm, height 60–120mm, FV-0 to FV-2 flame retardant) typically range from \$80–\$150 per meter.
- Customized or OEM trays with specific bending radii, angles, or IP sealing levels (IP44–IP68) may increase the price further ( ).

Chinese suppliers often offer factory-direct pricing and volume discounts, making bulk purchases more cost-effective. Trays are lightweight, corrosion-resistant, non-conductive, and suitable for indoor and outdoor industrial applications ( ).

Pricing in Europe

In Europe, fiberglass cable trays are generally more expensive due to higher labor costs, stricter safety and fire certifications (e.g., EN 61537, CE marking), and import duties if sourced from China. Typical European prices for high-quality trays are:

- Standard trays: €35–€80 per meter
- Heavy-duty or flame-retardant trays: €120–€250 per meter

European suppliers may also provide pre-certified trays for industrial and commercial projects, which adds to the cost but ensures compliance with local regulations.

Factors Affecting Price

- Material quality:** Higher fiberglass content, flame retardants, and UV resistance increase cost.
- Tray dimensions:** Wider, taller, or longer trays cost more.
- Customization:** Special bends, angles, or IP sealing l...
