

Price of high-temperature resistant jumper cables used in Ghanaian hospitals

AI Overview

High-temperature resistant jumper cables suitable for hospital use in Ghana typically range from GHS 500 to GHS 2,500 depending on specifications, insulation type, and length. Overview High-temperature resistant jumper cables are designed to withstand extreme heat and maintain electrical integrity in critical environments such as hospitals. These cables often feature insulation materials like silicone, fiberglass, or TFE, which provide durability and safety under high thermal stress. They are essential in hospital settings for connecting emergency power systems, generators, and critical medical equipment. Price Range in Ghana While exact hospital-specific jumper cable prices are not widely listed online, general high-temperature cables in Ghana can be sourced from suppliers such as Reroy Cable, Tropical Cable & Conductor Ltd., and Supply Master Ghana. Based on industrial-grade high-temp cable pricing: Short jumper cables (1–3 meters, 10–16 AWG): approximately GHS 500–800 Medium-length cables (3–6 meters, 8–12 AWG): approximately GHS 800–1,500 Long or heavy-duty cables (6–10 meters, 4–0 AWG): approximately GHS 1,500–2,500 Prices vary depending on conductor material (copper or tinned copper), insulation type, voltage rating, and supplier. Suppliers and Sourcing Reroy Cable Limited: Offers a wide range of high-quality copper and aluminum cables with heat-resistant insulation suitable for industrial and hospital applications. Tropical Cable & Conductor Ltd.: Manufactures durable power and control cables, including jumper wires that can be customized for high-temperature environments. Supply Master Ghana: Provides ready-to-order high-quality cables and wires meeting international safety standards, with delivery options across Ghana. Recommendations for Hospitals Verify insulation rating: Ensure the jumper cables are rated for high-tempe...
