

Price of stranded outdoor optical cable structure

AI Overview

Stranded outdoor fiber optic cables typically range from \$0.50 to \$5 per meter depending on fiber count, armoring, and specifications.

Pricing Overview

Basic Stranded Loose Tube Outdoor Fiber Cable These cables feature a compact stranded loose tube design with polyethylene jackets and hydrolysis-resistant loose tubes. Fiber counts range from 4 to 288 cores, with both single-mode and multimode options. Indicative pricing is generally \$0.50–\$2 per meter, depending on fiber count and customization options such as length and fiber brand (Weixin, Corning, YOFC).

.GYTA33 Stranded Loose Tube Steel Wire Armored Cable Designed for harsh outdoor environments, with steel wire armor, double plastic-coated aluminum tape, and PE outer sheath. Suitable for long-haul and interoffice communication, including aerial, duct, and river-crossing installations. Pricing is typically \$1–\$3 per meter, with exact quotes provided by manufacturers based on fiber count (2–44 cores) and order volume.

.GYTC8S Figure-8 Self-Supporting Outdoor Cable Features a figure-8 design with stranded steel wire strength members, corrugated steel tape armor, and water-blocking systems. Ideal for aerial installations, offering crush resistance, tensile strength, and easy installation. Prices generally range from \$2–\$4 per meter, depending on fiber count and single-mode or multimode configuration.

.GYTA53 Anti-Rodent Stranded Loose Tube Cable High-performance outdoor cable with gel-filled loose tubes, steel reinforcing core, and water-blocking elements. Suitable for long-distance backbone networks, telecom infrastructure, and industrial outdoor installations. Pricing is typically \$3–\$5 per meter, reflecting its advanced durability, high fiber capacity, and suitability for harsh environments.

Factors Affecting Price

Fiber Count: Higher fiber counts increase material and manufacturing costs. Ar...
