

Price of vertical cable tray fabrication in Nepal

AI Overview

The price of vertical cable tray fabrication in Nepal typically ranges from NPR 1,500 to NPR 5,000 per meter, depending on material, size, thickness, and finish. Factors Affecting Price

Material Type: Cable trays can be made from galvanized steel, stainless steel (SS 202/304/316), or powder-coated steel. Stainless steel trays are more expensive due to corrosion resistance and durability.

Tray Dimensions: Height, width, and thickness significantly influence cost. Common heights for vertical trays are 25mm, 40mm, 75mm, and 100mm, with thicknesses ranging from 3mm to 6mm. Larger and thicker trays cost more.

Finish: Options include pre-galvanized, hot-dip galvanized, powder-coated, or painted finishes. Hot-dip galvanization and powder coating increase fabrication costs.

Customization and Accessories: Vertical cable trays often require bends, tees, reducers, and supports, which add to the total price.

Supplier and Location: Prices vary between manufacturers such as Hutaib Electricals, Vaishno Storage, Spangle Steel, and Jeetmull Jaichandlall. Local fabrication in Nepal may reduce shipping costs compared to imported trays.

Estimated Price Range

Material/Type	Price Range (NPR per meter)
Standard GI or mild steel vertical trays	1,500 – 2,500
Stainless steel vertical trays (SS 304/316)	3,500 – 5,000
Custom sizes or heavy-duty trays	Prices may exceed NPR 5,000 per meter depending on complexity and accessories

Recommendations

Contact multiple Nepal-based manufacturers for quotes to compare prices and lead times. Specify material, dimensions, finish, and required accessories to get accurate pricing. Consider bulk orders, as manufacturers often provide discounts for larger quantities. By considering these factors, you can estimate the cost of vertical cable tray fabrication in Nepal and select the most suitable supplier for your project.
