

Prices of FRP Cable Trays in Southeast Asia

AI Overview

FRP trough cable trays in Southeast Asia typically range from USD 25 to USD 60 per meter, depending on material, fire retardancy, and supplier. Pricing Overview The cost of FRP cable trays varies based on resin type, fire retardancy, size, and supplier location. In Singapore, suppliers like Ferrotech and AEHub offer premium FRP/GRP trays with fire-retardant, UV-resistant, and corrosion-resistant properties suitable for industrial and marine applications. Prices for these trays generally start around USD 25–30 per meter for standard perforated or ladder types, with higher-end fire-retardant or custom trays reaching USD 50–60 per meter. Factors Affecting Price Material and Resin Type: Isophthalic Polyester (IFR) or Vinyl Ester resins provide different levels of fire resistance and chemical durability, influencing cost. Tray Type: Ladder, perforated, or solid trough designs have different manufacturing complexities, affecting pricing. Customization and OEM Orders: Custom dimensions, load capacity, or specialized fittings (bends, tees, couplers) can increase the unit price. Minimum Order Quantity (MOQ): Suppliers often require MOQs, e.g., 60 meters for Indian manufacturers, which can impact per-meter pricing. Bulk Purchase Discounts: Ordering in larger volumes from factory-direct suppliers in China or India can reduce costs significantly. Regional Supplier Insights Singapore: Ferrotech and AEHub provide high-quality FRP trays with compliance to ASTM E-84 and NEMA FG-1 standards, suitable for harsh environments. India: Manufacturers like Blue Moon Fibre offer FRP trays with long service life (8–10 years) and specialized fittings, with prices slightly higher due to quality and fire-retardant features. China: Alibaba and Made-in-China platforms list factory-direct FRP trays with competitive pricing, often suitable for bulk import into Southeast Asia. Practical Advice For Southeast Asian projects, co...
