Overview

MP002398 is a screened multicore cable engineered for reliable signal and power transmission in environments requiring robust electromagnetic interference (EMI) protection. Featuring a 2-core design with each conductor having a cross-sectional area of 0.5 mm², this cable is ideal for. All our fiber optic cables are designed and manufactured within the EU, ensuring full compliance with European quality and safety standards — and eliminating the delays, customs issues, and uncertainties of overseas supply chains. Your specifications, delivered faster. Despre. In addition, at Halley Cables you can find any type of cable you need without having to wait a long time.
