

Slovenia High Temperature Measurement Optical Cable Connector Manufacturer

AI Overview

Fokab d.o.o. and Elba d.o.o. are leading Slovenian manufacturers of optical cables and connectors suitable for industrial and measurement applications. Fokab d.o.o., established in 1995, specializes in optical fiber cables, connectors, and accessories for data and telecom networks. Their production facilities include semi-automatic assembly lines for various optical connectors such as ST, FC, SC, LC, and LX.5, which can be adapted for high-temperature measurement applications. Fokab also distributes certifiers, verifiers, and measurement instruments from TREND NETWORKS, supporting precise optical testing and monitoring in industrial environments. Elba d.o.o. is a Slovenian manufacturer and distributor of products for optical networks and electrical installations. They utilize advanced machinery, including TRUMPF laser systems and computer-guided bending machines, to produce high-precision components. Their expertise in custom fabrication and powder coating allows for durable optical connectors that can withstand harsh conditions, including elevated temperatures, making them suitable for high-temperature measurement setups.

Additional Resources

For a broader selection of suppliers, the Europages B2B directory lists multiple Slovenian optical cable manufacturers, enabling direct contact with companies that may offer specialized high-temperature optical connectors.

Considerations for High-Temperature Applications

When selecting optical connectors for high-temperature measurement:

- Ensure the connector materials (ceramic ferrules, high-temperature plastics, or metal housings) are rated for the intended temperature range.
- Verify fiber type compatibility (single-mode or multi-mode) with your measurement system.
- Confirm that the manufacturer provides testing and certification for thermal...
