

Sri Lanka Molded Cable Tray Prices

AI Overview

Molded cable trays in Sri Lanka typically range from LKR 1,500 to LKR 5,000 per meter, depending on material, size, and supplier. Price Range and Factors The cost of molded cable trays varies based on several factors:

- Material:** Fiberglass reinforced plastic (FRP) or other non-metallic molded trays are more expensive than standard galvanized steel trays due to corrosion resistance and durability.
- Tray Type:** Ladder, perforated, or solid-bottom trays influence pricing; molded trays are often solid or semi-solid, which can increase cost.
- Dimensions and Load Rating:** Wider trays or those designed to carry heavier cables cost more.
- Supplier and Brand:** Local manufacturers like Cable Management Systems, EMP, Bianco, and C&D Electrical offer competitive pricing, while imported trays may include shipping and customs fees.
- Bulk Orders:** Larger orders often reduce the per-meter cost, while small quantities may be priced higher.
- Installation Considerations:** Installation costs are usually separate from the tray price. Labor rates in Sri Lanka, project complexity, and mounting requirements can add to the total project cost.
- Supplier Options:**
 - Kiash Electricals:** Offers durable trays suitable for industrial and commercial projects, including powder-coated options for corrosion resistance.
 - Eastlink.lk:** Provides a variety of cable trays including aluminum, steel, and electro-galvanized options.
 - Local Manufacturers:** EMP, Bianco, C&D Electrical, and Magline supply molded and metal trays with customizable sizes and configurations.
- Recommendations:** Request samples before bulk purchase to verify material quality and dimensions. Ensure compliance with IEC 61537 and relevant Sri Lanka Standards (SLS) for safety and durability. Compare local vs imported options to balance cost and long-term performance. By considering these factors, you can expect molded cable trays in Sri Lanka to cost roughly LKR 1,500–5,000 per meter, with higher-end trays offering superior corrosion resistance and load capacity.
