

Testing Station Power Distribution Box

Overview

PDU's designed to meet test application needs include EMI filtering, surge suppression, remote EPO control, networking, and more. Custom units come in all shapes and sizes up to 480 volts, 400 amps. Need more information?

Do you have any questions?

Get in touch with us! Test switches are designed and manufactured to allow quick and easy multi-circuit testing of switchboard relays, meters and instruments by any conventional system. Capacity to deliver higher volumes of hundreds to thousands of units a year. PDU family design management to minimize OEM SKUs. Logistics partnership to help manage OEM production. Marway specializes in application-specific PDU's. Rackmount chassis from 0U to 24U, to rack sized. The static Elektra testing panels feature robust steel plate housing powder coated in RAL 7035/5007.
