

Thailand sells fiber optic cables for power transmission

AI Overview

Thailand manufactures, imports, and sells fiber optic cables through local companies and international partnerships, supporting high-speed telecommunications and digital infrastructure. Local Manufacturers and Distributors Thailand has several key players in the fiber optic cable market. Thai Fiber Optics Co., Ltd. (TFOC) is the first manufacturer in Thailand to produce single-mode and multi-mode loose tube fiber optic cables that meet international standards, offering high-capacity communication solutions. FiberHome Communications' subsidiary, Thailand Ruisen Co., Ltd., recently established a large optical fiber and cable manufacturing base with an annual production capacity of millions of core kilometers, aiming to supply both local and international markets. Additionally, distributors like Tri Power Cable and Engineering Co., Ltd. provide a range of electric and communication cables, including fiber optic solutions. Market Trends Thailand's fiber optic cable market has been growing rapidly. Imports surged by 110.49% from 2023 to 2024, reflecting increasing demand for advanced telecommunications infrastructure, high-speed internet, and secure data transmission across sectors such as telecommunications, data centers, and defense. The market is expanding due to the need for reliable and resilient communication networks, particularly for defense and security applications. Infrastructure and Connectivity Projects Thailand is actively enhancing its network infrastructure. International Gateway Company (IGC), a subsidiary of ALT Telecom, is collaborating with LitUp Network Singapore to develop advanced network connectivity, including submarine cable systems and cable landing stations. This partnership supports high-speed internet services and regional connectivity, linking Thailand to the Greater Mekong Subregion and ASEAN networks. Projects like the Satun-Hatyai-Songkhla-R...
