

UK Indoor Fiber Optic Cable Order

AI Overview

Indoor fibre optic cables in the UK can be ordered from multiple suppliers, including pre-terminated and standard distribution cables, with options for next-day delivery and free shipping over certain amounts.

Types of Indoor Fibre Optic Cables

- Simplex Cables:** Single fibre, tight-buffered with Kevlar strength members, typically used for patch cords or backplane connections.
- Zipcord Cables:** Two simplex fibres joined together, suitable for desktop connections or short runs.
- Distribution Cables:** Multiple tightly buffered fibres bundled under a single jacket, often reinforced with fiberglass, ideal for riser and plenum applications.
- Breakout Cables:** Robust cables where each fibre is individually reinforced, suitable for industrial or high-stress environments.

Fibre Types

- Multimode Fibre:** OM1, OM3, OM4, suitable for shorter distances and high-bandwidth applications.
- Singlemode Fibre:** OS2, designed for long-distance, high-speed links.

Ordering Options

- Pre-Terminated Cables:** Available with LC, SC, or ST connectors, ready for immediate installation, reducing termination work on-site.
- Standard Indoor Cables:** Can be purchased in bulk and terminated as needed, suitable for structured cabling or patch panels.

Suppliers in the UK

- Universal Networks:** Offers pre-terminated indoor/outdoor fibre cables with free delivery on orders over £200.
- The Networking Store:** Provides a wide range of indoor, outdoor, and armoured fibre cables with next-day UK delivery and free shipping over £100.
- Ultra Stream Technologies:** London-based supplier of indoor fibre cables, including simplex, zipcord, distribution, and breakout cables from brands like Extell, Dconnect, and Panduit.

Installation Considerations

Indoor fibre cables are typically used for short conduit runs, riser, or plenum applications. Distribution cables may require breakout boxes or patch panels for termination, while pre-terminated cables simplify installation. Ensure the cable type matches your network requirements, including bandwidth, distance, and connector type. By selecting the appropriate cable type a...
