

Uruguay Vibration Optical Cable Price Inquiry

AI Overview

The average price of optical fiber cables in Uruguay is approximately \$12,500 per ton for imports, with export prices around \$39,500 per ton, though specific "vibration optical cable" pricing may vary. Market Pricing Context In Uruguay, the average import price of optical fiber cables stood at \$12,518 per ton in 2024, reflecting a 39% increase from the previous year, while the average export price was about \$39,467 per ton in 2024. Prices vary depending on the country of origin, with cables from Brazil generally being more expensive and those from China among the lowest.

Factors Affecting Price

Type and Specifications: Specialized cables, such as vibration-resistant or high-performance optical cables, may cost more than standard optical fiber cables due to additional materials and engineering requirements.

Import Source: Uruguay imports most of its optical fiber cables from China, Brazil, and the United States, with prices differing by supplier.

Market Trends: The Uruguayan optical fiber market has seen steady growth in consumption, with imports totaling \$5.32 million in 2024, indicating strong demand.

Practical Considerations

Retail vs. Bulk Pricing: The figures above reflect bulk import/export prices. Retail or project-specific prices may include logistics, taxes, and installation costs, which can significantly increase the final cost.

Customization: If the vibration optical cable has unique specifications, prices may be higher than the average import/export figures. Contacting suppliers directly for quotes is recommended for precise pricing.

In summary, while standard optical fiber cables in Uruguay cost roughly \$12,500 per ton for imports, specialized vibration-resistant variants are likely to be priced higher depending on technical specifications and supplier. For exact pricing, consulting local distributors or manufacturers is advisable.
